### Subject of the Disclosure

Press Release entitled "Crown Asia Expands Project Portfolio"

### Background/Description of the Disclosure

#### Crown Asia Expands Project Portfolio

Crown Asia Chemicals Corporation (Crown Asia), a leading manufacturer of plastic compounds, CROWN pipes and fittings, is set to add more projects into its growing pipeline.

After recently securing supply to a number of PPP projects such as the NAIA Expressway Phases 1 and 2 and six NHA Housing projects, Crown Asia has made its way into various mall, healthcare and leisure developments.

Crown Asia Chemicals began supplying its PVC pipes to Ayala Land's new premier commercial developments, namely, the Sunrise Paradigm in Pasig and the Bonifacio Stopover in Taguig. Both are mix-use projects with commercial malls combined with office buildings. The company is likewise servicing the PVC pipe requirements of Star Malls of Vista Land located in Bataan, Bulacan, Las Pinas and Laguna.

As Crown Asia broadens its applications, Crown pipes is currently also being used in the construction of the UST Hospital as well to several Ace Medical Hospital Facilities in Quezon City, Valenzuela City and Pateros, Rizal. Crown pipes were supplied to the Medical City in Iloilo and Unihealth Hospitals in Paranaque and Binan, Laguna. ACE hospital in Iloilo is slated to receive CROWN pipes for its construction requirements.

#### Cultural Partner

Crown Pipes are continuously being supplied to the Las Casas Filipinas de Acuzar, an open-air museum and heritage park located in Bagac, Bataan. Developed by New San Jose Builders, the resort features ancestral houses transported from all over the Philippines and reassembled in one single location. The resort is considered a tourism showcase as the current finished twenty-seven ancestral pieces are used for hotels and restaurants. A Replica of Balanga Cathedral is also installed in this resort.

#### Looking Forward

"We are proud to be part of a cultural project as ambitious as the Las Casas Filipinas de Acuzar. It shows that aside from being a preferred brand because of our proven product quality, Crown Pipes is also establishing its versatility in wider applications. We will continue to update our other project inroads." said Derrick P. Villanueva, General Manager of Pipe Division.

Mr. Villanueva is confident that with the continuous expansion to other project developments, Crown Asia Chemicals is

poised for further growth in 2016 and on track with its goals.
